

THE RITZ LONDON

ROLL INTO THE RITZ!

Incorporated by founders Charles Stewart Rolls and Henry Royce in March 1906, just two months before The Ritz opened its doors for the first time, the Rolls-Royce company has never produced anything but the most luxurious motor cars in the world. So what better way for The Ritz to mark its 100th anniversary in 2006 than to take delivery of a magnificent new Phantom Rolls-Royce, replaced by a long-wheelbase model in 2008.

Synonymous with quality, opulence and extravagance, this handsome motor car was hand crafted at the Rolls-Royce Goodwood factory and is completed with the latest satellite navigation system, flat screen plasma DVD screens and crested door handles. And in addition to its bespoke 'Ritz blue' painted exterior body work, custom fitted leather interiors, walnut burr trimmings and personalized registration number, the Ritz Phantom's most important asset is our Rolls-Royce trained chauffeur Winston Lee.

The Ritz Rolls-Royce is available for hire as an exclusive service to guests, residents and non residents. Please contact the Hallporter's Desk for details.
